PREFACE

Every ten years from 1880 to 1920, Vassar College issued an Alumnae Biographical Register. Although questionnaires were sent to alumnae in 1930, the material was not published because of the expense involved. Publication of the present Alumnae Biographical Register is made at this time in preparation for the Seventy-Fifth Anniversary of Vassar College, which will be celebrated in 1940.

This seems a fitting time to gather into one volume data concerning all of the students and faculty who have ever been connected with Vassar College. The present edition of the Biographical Register is the first to contain, in addition to the names of all graduates, the names of all nongraduates, including special, preparatory, and art students. Previous editions have included only those nongraduates who were members of the Associate Alumnae of Vassar College (associate members). This edition lists 6,027 nongraduates as compared with the 87 associate members listed in the 1920 edition. Heretofore information concerning the students of the early days could be found only in the original records of the college.

The present list of officers of administration and instruction is the first of its kind to be published. In previous editions of the register, the administrative officers were grouped according to departments, and the officers of instruction according to rank, with the subjects taught listed only in the case of those with professorial rank. To make for greater ease in reference, the names of all officers are herein listed alphabetically, followed by a description of each office.

This is the first Biographical Register to contain lists of holders of advanced degrees and of fellowships from Vassar College.

The biographical data included in this volume is based upon replies to questionnaires sent in December 1937 and March 1938 to all graduates and associate members. A questionnaire was mailed in the spring of 1938 to all nongraduates (other than associate members) for whom there was any clue to an address. Since no regular attempts have been made in the past to keep in touch with this group, the number for whom addresses and biographical information was secured is small.

On November 30, 1938, Vassar graduates totaled 10,645. Of these, 9,463 are living and 1,192 deceased. Nongraduates, including special, preparatory, and

art students, totaled 6,027. Of these, 5,249 are living so far as is known and 778 deceased.

The questionnaire mailings resulted in a total of 7,643 replies from graduates, an 87% response, and 1,379 replies from nongraduates, a 23% response. The 1910 Biographical Register and the 1920 and 1930 questionnaires furnished supplementary information.

The material from these questionnaires has been tabulated by the Alumnae Office and statistical studies have been prepared by the Department of Economics. These studies are being published in the *Vassar Alumnae Magazine*.

The Alumnae Office has been responsible for compiling and editing the alumnae biographical material. Because of the difficulty of standardization, the volunteer work of alumnae is not included. It is hoped that some future edition will recognize this work. Corrections and additions to this register, and particularly information concerning "lost" graduates and nongraduates, will be welcomed.

The Alumnae Office wishes to express its gratitude to all those who have helped in the publication of this volume: to the many alumnae and friends who aided in the search for nongraduates; to Professor Mary Landon Sague, '07, chairman of the faculty Committee on Graduate Study, who furnished the lists of holders of advanced degrees and of fellowships; and to Miss Cornelia M. Raymond, '83, for her extensive work on the compilation of the list of officers of administration and instruction.

In accordance with the custom of the Associate Alumnae, this edition of the register is sent to all alumnae and nongraduates who were members of the alumnae association during the fiscal year July 1, 1937-June 30, 1938. To all other alumnae a copy of the register is available for \$4.00.

EXPLANATORY NOTES

DECEASED—Throughout the book, the names of those who are known to be deceased are marked with an asterisk.

ADVANCED DEGREES AND FELLOWSHIPS—In the lists of holders of advanced degrees and of fellowships, the class numerals in parentheses indicate Vassar alumnae.

CLASS AFFILIATIONS—In the list of graduates by classes, when two classes are given following a graduate's name, the first date refers to the class with which the alumna entered and with which she wishes to be affiliated. The second date refers to the year in which she received her degree.

ADDRESSES—Since this Biographical Register will be in use for some time, permanent addresses, when given, have been used.

BIOGRAPHICAL ENTRIES—In each biographical entry, the different items are separated by semicolons. The order of the items is as follows:

Graduate degrees (including diplomas and certificates) and graduate study not followed by degrees.

Paid occupations since graduation.

In school or library positions, if no institution is listed, a public school or library is to be understood; e.g., tchr Milton Mass 98-99; libn Boston 99-02.

In teaching positions, only highest rank and main subjects taught are recorded.

If different positions have been held in the same institution or company, they are separated by a comma, and the name of the institution is not repeated; e.g., proofreader J Walter Thompson Co NYC 18-19, copywriter 19-25.

If different positions have been held within the same city, the name of the city is not repeated; e.g., soc work Charity Orgn Soc NYC 15-16; asst prin Brearley Sch 16-20.

The states of well-known cities are omitted in the biographical entry. The state of any city or town is omitted in a later mention of that city or town in the same entry. The cities and states of colleges are also omitted.

Date of marriage, husband's occupation, date of husband's death if deceased.

Occupations of husbands are recorded according to field of business or profession. The occupations during active years of retired or deceased husbands are included. Since classification in many cases has been difficult, it is hoped that in future editions space will permit the occupations of husbands to be stated more specifically.

Names of children, dates of birth, dates of death if deceased, and undergraduate colleges.

If no year of graduation follows a child's college, it indicates either that the child did not graduate or that the year of graduation is not known. Only if a child attended Vassar is the class always given in the case of both graduation and nongraduation.

Date of alumna's death if deceased.

If no date follows "d.", signifying deceased, the date of death is unknown.

NONGRADUATES—Nongraduate members of classes, with the years of their attendance, will be found at the end of each class. If the address is unknown, the city or town from which the student entered is stated, except when the married name is given.

SPECIAL, PREPARATORY, AND ART STUDENTS—Special, preparatory, and art students who are members of the Associate Alumnae and who have stated an affiliation with a class are listed with the nongraduate members of that class. Otherwise, they are listed in a separate section following the graduates and nongraduates.

The special and preparatory groups were formed in 1866-67. The preparatory school was continued until June 1888, the special courses until June 1910, although since that date there have been a few students ranked as "specials". The Schools of Music and Painting were established in 1877-78 and discontinued in June 1892.

The receipt of a diploma from Vassar College by an art student is indicated in parentheses following the years of her attendance; e.g., painting 81-84 (dip 84). In the first year of the college, 1865-66, the rank of students was not determined until the middle of the year. In the year 1866-67 some students were ranked as "unclassified regulars". Since these students cannot be designated as nongraduate members of a class, they are listed under the special, preparatory, and art group. Therefore, in these cases, the dates of attendance are not preceded by the qualifying "spec" or "prep".

GEOGRAPHICAL AND ALPHABETICAL LISTS—The geographical list contains only the maiden names. The alphabetical list contains both the maiden and married names. In both lists, "ex" followed by a class numeral indicates that the entry will be found under the nongraduate lists. "Spec" appears after the names of all special, preparatory, and art students found in the group under that heading. "A.M." follows the names of holders of Master of Arts degrees other than Vassar graduates who are members of the Associate Alumnae, for whom biographical information is given following the special, preparatory, and art group.
